INDOOR BIKE

Model 5502

PUSHING THE LIMITS OF HUMAN PERFORMANCE

At Keiser, we're constantly innovating to reach the next level of human performance. We're never satisfied with the status quo. Even if it's our status quo. Because... Strong can be stronger. Fast can be faster. Power can be more powerful. Because science is on our side. **Because... 'Good Enough' Isn't.**

KEISER

KEISER CARDIO

SIMPLICITY IS THE ULTIMATE SOPHISTICATION. In 1996 Keiser set out to create a bike that would exceed the demands of Indoor Group Cycling Classes. The M3 Indoor Bike not only exceeded expectations, but changed Indoor Cycling Bikes forever by introducing many industry firsts including magnetic resistance, V-shaped frames and rear-flywheel design. All of our M Series Cardio Products are made to Keiser's exacting standards to give you the finest in quality, service and performance. In addition, Keiser Integrated Technology uses Bluetooth® connectivity to record and track progress using our M Series Apps.

CARDIO MACHINES **M3i *lite*** **INDOOR BIKE**

Model 5502

POWERED BY TECHNOLOGY

The popularity of our Integrated Technology, introduced in our M3i Bike, drove us to offer it on one of our lower models. The M3i lite features everything you get in our M3 Bike, plus all the benefits of our Integrated Technology. Keiser's M3i lite and M3i Bikes are the only group cycling bikes on the market that can transmit to multiple Bluetooth® devices at once.

PUSHING PAST INDUSTRY LIMITS KEISER M SERIES BIKE PEDAL

With our game-changing bike pedal, Keiser has again revolutionized indoor cycling down to the last detail. New pedal features include:

- Stronger bearings tested for static and dynamic loads
- Cage integrated into pedal design, not just added on
- Ramped barbs for secure and simple foot placement
- Curvature eliminating pressure points on the rider's foot
